Summary

Senior product designer with 5+ years designing edtech SaaS and connected-hardware products across mobile and web. Shipped an AI feedback assistant used by 350,000+ users that generated $400K+ in revenue. Leads design systems, mentors designers, and partners closely with product and engineering.

Experience

UX/UI Designer · Rehlko — Apr 2026 – Present

Designer across three connected products; senior-level scope

- Redesigned homeowner onboarding with a visual guide for adding a generator to an account, cutting related support cases by **20%** in the first month.
- Design mobile and web experiences for three Kohler Energy Management products, simplifying complex generator setup, monitoring, and troubleshooting.
- Act as product owner on select initiatives, defining requirements with engineering, hardware, and firmware teams.
- Pitched, built, and maintain the team's Figma system: **3** product component libraries, global foundations, and a naming system now used across **30+** projects.

Senior Product UX Designer · Echo360 — May 2025 – Dec 2025

Promoted following Echo360's acquisition of GoReact

- Led design for EchoPoll and EchoExam, two edtech platforms, across mobile, tablet, and web.
- Mentored **3** co-designers on their work and design system use.

Product UX Designer · GoReact — Apr 2021 – May 2025

Acquired by Echo360 in May 2025

- Led design of an AI-powered feedback assistant adopted by **350,000+** users, delivering feedback **~72x** faster and generating **$400K+** in revenue in 2024.
- Led an overhaul of navigation, onboarding, dashboards, and core workflows.
- Owned the design system as its gatekeeper, reviewing all work for component compliance and improving accessibility and consistency.
- Mentored a co-designer and a graphic designer interested in UX.

Education

BFA, Communication Design · Milwaukee Institute of Art & Design — Aug 2018 – May 2021

Magna Cum Laude
